

2014 Ingham County Fair

July 28-August 2, 2014

2014 Ingham County Fair Swine Project Identification Submission Card

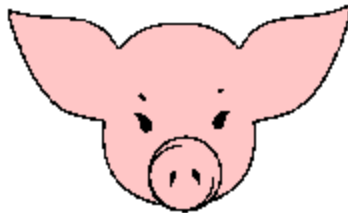

4-H swine project must be in exhibitor's possession by May 1st. Identification cards for swine must be submitted by May 15th. Complete this card and submit with hair follicle sample and photo for each pig (up to 5) in a ziplock bag (1 bag per pig). All pigs will be tagged during weigh-in at fair. See fairbook for 2014 identification, tagging, weigh-in, and show procedures.

Exhibitor Name:

4-H Club or FFA Chapter:

Additional family members:

If your pig has an ear notch, indicate its ear notch here and mark the pig below.

For questions call:

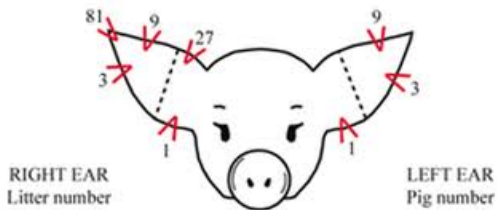

Jerry Schneider 851-4863

Tim Jackson 589-5196

See back of this card for additional information

If you need instructions for collecting a hair follicle sample from your pig please see this weblink:

<http://www.asi.ksu.edu/doc6055.ashx>. For Ingham County Fair, you will only need a few hair follicles, not the number indicated in the handout. You will put the samples in a ziplock bag, not an envelope.

Ingham County 4-H & Fair reserve the right to test any of the hair follicles submitted to match to pigs actually shown at the fair. Exhibitors should keep in mind that the intent of the 4-H project is a learning experience; the member should be keeping records on the specific pigs identified throughout the learning process. The purpose of possession dates and identifying animals is to pinpoint which animals are the exhibitors 4-H project for the current year.

Fair registration tips:

- If you have 2 individual pigs you register for market class twice (class 200)
- If you plan to show as a pen (matched pair) you register for 1 market class and 1 pen (class 200 & 201). If you are unsure if you will show as a pen, you may register both ways—(class 200, 200, 201)
- All exhibitors are highly encouraged to register for showmanship for their age category. This class may be judged during market class.
- Only those qualified should register for home grown class; these pigs must be shown in class 200 also.
- Exhibitors encouraged to register for record keeping and Tom Stid Award. Please note that these projects can be exhibited in swine department as well as record keeping department during Still Exhibit judging.
- Members must have a current PQA number to show/sell at fair
